

**PARE**  
**C O R P O R A T I O N**  
ENGINEERS SCIENTISTS PLANNERS

Pare-designed East Bay Bike Path.

As we have done in the past, Pare is instituting a summer work schedule to enable employees to spend more time outdoors with their friends and family. This doesn't mean a reduction in work hours, simply a shift of our work schedule. We will be extending our hours Monday through Thursday by an hour each day starting the week of June 6th; and then will close each Friday at noon. This shift in our daily schedule will be in effect until Friday, September 2nd.

Project and client schedules remain our first priority, so Pare staff will be available (just as they are throughout the year) to address your project needs. Field and construction services will not be affected by this new schedule. Project managers and appropriate staff will ensure that you have their contact information to stay in touch throughout your project.

Be assured that Pare will continue to be responsive and diligent to your needs so that we can all enjoy a wonderful summer!
