

OPEN POSITION: Intern
JOB CODE: Intern-11-25
OFFICE LOCATION: Flexible

POSITION SUMMARY:

Pare Corporation has an exciting internship opportunity for you to gain hands-on experience working at a multidisciplinary engineering firm. We have internships available for Civil, Structural, Bridge, Transportation, Geotechnical, Environmental, Waterfront/Marine, Natural Resources, and GIS positions. Our professional staff helps to foster career growth and skill development by providing a positive workplace environment and meaningful work tasks. Our collaborative atmosphere allows many interns to gain multidisciplinary experience by working with multiple company divisions.

We are looking for self-starters with a positive attitude, a willingness to learn, and a passion for engineering, design, and related support services. This opportunity will allow you to take on new challenges in both the field and the office while working on a wide variety of projects. This internship can be completed as a summer or semester internship.

WHAT YOU WILL BE LEARNING AND DOING:

- Executing various technical assignments under direct supervision of senior staff.
- Performing field tasks and field reviews of existing site conditions and assist in performing surveys and measurements.
- Performing various engineering calculations.
- Preparing field and engineering reports, technical specifications, and other technical documents.
- Providing due diligence for state and local regulations including zoning, planning, and environmental.
- Performing construction-phase field observation.
- Working with team to ensure schedules, budgets, quality control, and safety standards are achieved and maintained.
- May assist with other administrative and technical tasks as needed.

EDUCATION, EXPERIENCE, AND COMPETENCIES:

- Must be enrolled in an engineering, natural resources, or related program at an accredited university and have completed at least one year of study. Include relevant coursework in resume.
- Must have strong computer skills, including Microsoft Excel and Word.
- Must possess excellent organizational skills, ability to meet time-sensitive deadlines, and strong attention to detail.
- Experience using engineering analysis software programs is a plus.
- Experience in AutoCAD and/or MicroStation software a plus.
- Previous co-op/internship experience is a plus.

Pare Corporation's internship program offers:

- Practical experience with a variety of engineering tasks.
- Shadowing, mentoring, and training opportunities with professional engineers.
- Flexibility to accommodate class schedules for students.
- Competitive salaries.
- An exit interview to help identify strengths and career planning at the close of the internship.
- Free PE and FE Online Courses through School of PE

Salary Description: \$23-\$25/hr. or commensurate
